

What Kind of Bride are You?

Take Our Quiz to Find Out What Kind of Bride You Are

There are a ton of choices to make about your wedding day. And when it comes to that decision making, from the internal battle over sporting a sheer, shiny lip gloss or rocking a classic red lipstick, to figuring out the flower situation, your answers should really be based on what type of bride you want to be on your big day. Your bridal vibes should be a reflection of who you (and your partner) are, so it's important to understand what kind of bride you identify with most. Are you a free-spirited babe with barefoot in woods dreams? A forward-thinking fashion girl who wants to keep it modern and minimalist? What if you're all about that princess gown, white wedding, black tie thing? Or are you the kind of bride that throws tradition totally out the window?

Take this quiz to figure out what type of bride you are, and which direction you might want to take on your big day when it comes to bridal style, venue, food, playlist and more.

ANSWERS

MOSTLY
A'S / *the* **BOHO BRIDE**

You're an ethereal bride who wants nothing more than to highlight the pure, unfiltered beauty of your big day. You find inspiration in your surroundings, so your color palette might feature grassy greens, robin's egg blues and earthy tones — oh, and don't forget the flower crown instead of a traditional veil. Flowy feathers, lace and wildflowers are the only other accessories you'll need.

MOSTLY
B'S / *the* **MINIMALIST BRIDE**

The motto of your big day is keep it chic and simple. Clean lines, sleek silhouettes and modern elegance set the scene at your wedding — from your and your bridesmaids' slicked-back hair to the edgy geometric decor to the mixed metal pops that make "minimal" feel rich. In other words, anything with sparkles or embellishment need not RSVP.

MOSTLY
C'S / *the* **CLASSIC BRIDE**

What's black and white and chic all over? Your wedding! Classy decor with a nod to nautical gives off an elegant but not overly-fancy shmancy feel. From a preppy mood at dinner (thanks to monogrammed napkins) to feminine heels with bows that peek out under your dress, your wedding will look like it's straight out of a J.Crew magazine.

MOSTLY
D'S / *the* **NON-TRADITIONAL BRIDE**

Think of everything you associate with a text-book wedding and throw it out the window. Food trucks, live music, mismatching bridesmaid getups and a super unique dress (did someone say crop top?) will make your big day one your guests will remember too. Temporary tattoos as parting gifts are the cherry on top of a truly unique experience.
